## Privacy Act Statement

Participation in the Federal Facility Ridesharing Program is voluntary and a private accommodation of employees rather than a Federal activity. Ridefinders Network will observe Privacy Act requirements because participation requires solicitation of personal information. The information collected will be used to maintain an accurate database of those individuals participating in the program and to provide individual ridematch lists to Federal employees containing work locations, duty hours, and telephone numbers of participants. See also the DOE-25 system of records and its routine uses.
